DESCRIPTION

Realvita - Your Energy and Vital Support for Every Day

Realvita is a food supplement designed to support your daily well-being, thanks to a mix of essential vitamins that contribute to normal energy metabolism.

Key ingredients and their benefits approved by EFSA:

The pool of vitamins C, B2, B3, B5, B6 and B12 is specially designed by our experts to contribute to the reduction of tiredness and fatigue.

Vitamins B1, B2, B3, B6, B5 and B7 work synergistically to contribute to normal energy metabolism. In addition, Vitamins C and B2 contribute to the protection of cells from oxidative stress.

Additional proven benefits of the vitamins in Realvita:

- Vitamin C (L-ascorbic acid): contributes to the normal functioning of the immune system. Supports the normal formation of collagen for healthy skin, bones and cartilage.
- Vitamin B1 (Thiamine): contributes to the normal functioning of the nervous system.
- Vitamin B3 (Niacin): helps maintain healthy skin.
- Vitamin B5 (Pantothenic acid): contributes to the normal synthesis and metabolism of steroid hormones, vitamin D and some neurotransmitters.
- Vitamin B6 (Pyridoxine): supports the normal functioning of the nervous system and contributes to the normal formation of red blood cells.
- Vitamin B9 (Folic acid): contributes to normal hematopoiesis and normal homocysteine metabolism.
- Vitamin B12 (Cyanocobalamin): contributes to the normal formation of red blood cells.

- Biotin (Vitamin B7): contributes to the maintenance of healthy hair, skin and mucous membranes.

Realvita also contains Royal Jelly, a substance produced by bees composed of vitamins, minerals and proteins, which can help improve the general well-being of the body.

Thanks to its natural orange flavor, Realvita offers a pleasant and refreshing experience, making it ideal for daily consumption.

With Realvita, you can support your well-being in a simple and natural way, thanks to carefully selected ingredients and a formulation that meets the highest quality standards. Realvita is your ally in maintaining normal energy levels throughout the day.

DESCRIPTION

RealFibre is a dietary supplement **made with fibres** that promote the **maintenance and development of a healthy intestinal flora**.

It can be useful in case of constipation or dysbiosis due to an improper diet or antibiotics taking.

The main characteristics of prebiotics are represented by the resistance to digestive processes of the upper gastrointestinal tract and by the selective fermentation for one or for a limited number of micro-organisms of the intestinal flora.

Prebiotics are the nourishment for a good intestinal flora, thus creating unfavorable conditions for pathogenic microorganisms.

FOS (fructo-oligosaccharides) are not hydrolyzed by intestinal enzymes and reach the cecum structurally intact.

Their consumption increases fecal bulk and thus may help to combat constipation.

Inulin is an oligosaccharide formed by long chains of fructose.

Its peculiar characteristic is to favor the presence of Bifidobacteria in the intestine.

Overall, these effects translate into a better intestinal function in **absorption of nutrients**, and into an **aid for intestinal transit**, improving the **well-being of the intestine** and therefore of the whole organism.

INDICATIONS

Realfibre is a dietary fiber supplement (Inulin and apple fiber) with fructoligosaccharides which is required in all cases of increased requirements or reduced intake of these nutrients.

DESCRIPTION

Snep RealComplex is a dietary supplement that may be useful to facilitate the **body purification** through the liver and kidneys.

The Dandelion promotes detoxification through the liver of toxic substances and metabolites accumulated into our organism.

The Birch can promote diuresis, activity attributed to flavonoids; it may also be useful for preventing kidney stones and gallstones.

The Artichoke can promote a choleric action for the presence of cynarin, a bitter substance that stimulates the secretion of bile; to this plant are attributed also the eupeptic and stomachic functions.

Snep Real Complex has in its form also some Mineral Salts, including Iron Bisglycinate, which is constituted by a molecule of ferrous iron bound to two molecules of glycine.

This compound containing iron seems to be well tolerated and well absorbed by the gastrointestinal system.

Vitamin C is an important antioxidant that can counteract the action of free radicals, so it can help the body against pollutants, smoking effects and tissues aging; it is also important for the absorption and utilization of iron.

Magnesium citrate can be useful to relax muscles: the citrate may support the body in weariness situations, and such as birch can counteract the onset of some types of kidney stones.

Calcium carbonate may have important function for the bones, together with Vitamin D, and soothing effect to the stomach acid.

With its components, Snep Real Complex can be a great help to **purify the body, to protect it against free radicals, and to maintain a physiological wellbeing.**
