KALOSNEP

00145P1

DESCRIPTION

Formulated using the ancient culture of Ayurvedic medicine based on the knowledge of plant properties, applied to the awareness and rationality of modern Western phytotherapy. KALOSNEP, thanks to the properties of its extracts, can help improve and regulate metabolism by acting on key processes, creating conditions for renewed physical well-being.

Emblica fruit extract is a strong antioxidant with positive effects on carbohydrate metabolism, gastric acidity control, liver activity, and the body's natural defenses.

This expert formulation also contains guarana extracts, a tonic with a stimulating effect on metabolism, acting on lipid metabolism and body weight balance.

Herbal products can have more significant results when combined with a proper diet, a healthy lifestyle, and physical activity (even moderate). Contains 100% natural ingredients with certified quality.

INDICATIONS

Kalosnep sachets is a dietary supplement made up of extracts from 7 plants and Coenzyme Q10. Cassia Nomame and guarana may be useful to maintain the physiological balance of the body weight, when taken together with a suitable low-calorie diet and following a healthy lifestyle with a good level of physical activity. The Emblica can promote metabolism of carbohydrates; Curcumin, Berberine and Ginger are useful for digestive and liver function; Piper nigrum can promote regularity of bowel movements and digestive function. Curcumin, the Berberine and coenzyme

Q10 are dissolved in cocoa butter and incorporated into the final product with a unique micro-emulsion technology. Thanks to this particular technique of working the active ingredients present in these extracts are more biodisponibili. Se the diet is followed for long periods, longer than three weeks, it should consult medical advice.
